

# PALM BEACH R&D

## Automated Parking Garages

Patent pending #09/942,600

Projected Publication #: [20020039526](#)

This is the parking garage of the future. Imagine simply dropping your car off at the entrance of the parking garage. Then when you're ready to leave your car is delivered to you automatically. No more remembering where you parked. No more elevator rides and walking to find your car. Your car comes to you.

---

## KEY BENEFITS

- With efficient use of space, the capacity of the building is doubled
  - The need for personnel is minimized
  - The experience of parking is simplified for the consumer
-
